

## **SUBJECTS - Forms 1 and 2**

Our initial concern is to ensure the smooth transfer of students from primary schools to secondary school. For many of the year group, this involves great changes not only in their friendships, but also in the teaching and learning styles they experience. The Year Team is committed to ensuring that the students make a good start in the school.

All students except those with obvious learning disabilities will follow a common timetable consisting of the following:

1. English A & B
2. Mathematics
3. Science (Integrated and Agricultural)
4. Humanities
5. French
6. Spanish
7. Information Technology
8. Home Economics
9. Design and Technology
10. Visual Arts
11. Music
12. Physical Education
13. Personal Social and Health Education (PSHE)
